Replacement reminder

The latest Philips shavers have an inbuilt replacement reminder in the form of a shaving unit symbol. This symbol will light up and indicate when to replace the shaving heads.

Simple replacement

1. Open the shaver by pressing the "release" button; 2. Remove the retainer by turning the lock anticlockwise; 3. Take out the old shaving heads and carefully insert replacements; check that the heads align exactly in the setting; 4. Replace the retainer and secure it by turning the lock clockwise; 5. When you close the shaving head properly, you will hear it click into place.

Reset your shaver to new

The latest Philips shavers have an inbuilt replacement reminder, which will tell you when to replace the shaving heads. After replacing the shaving heads, you can reset the replacement trigger by pressing the on/of f button for more than 7 seconds. Otherwise, the replacement trigger will be turned off automatically after 9 successive shaves.
