H7 ELITE

PREMIUM ATX MID-TOWER

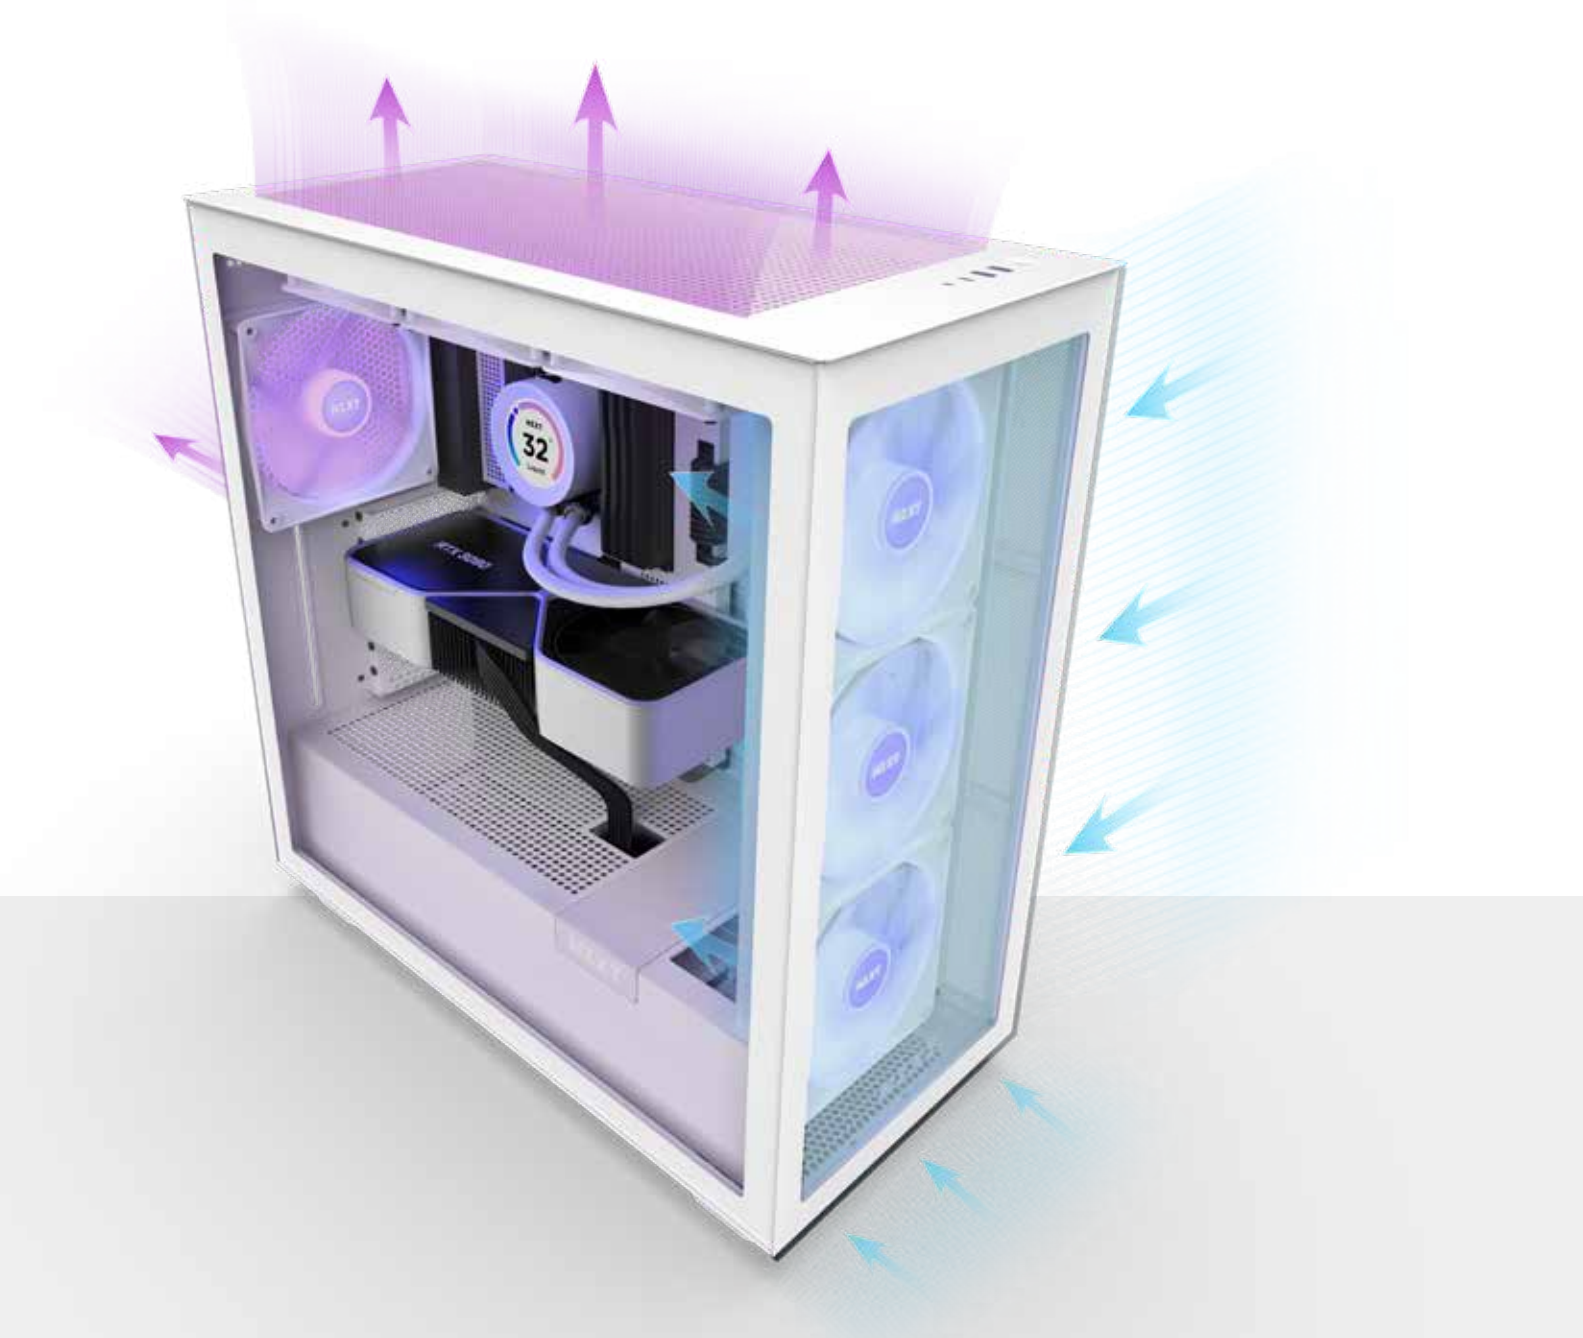

ABOUT THE PRODUCT

Light up your build to fit your style. The H7 Elite features excellent RGB features and a glass front panel to showcase your ideal build.

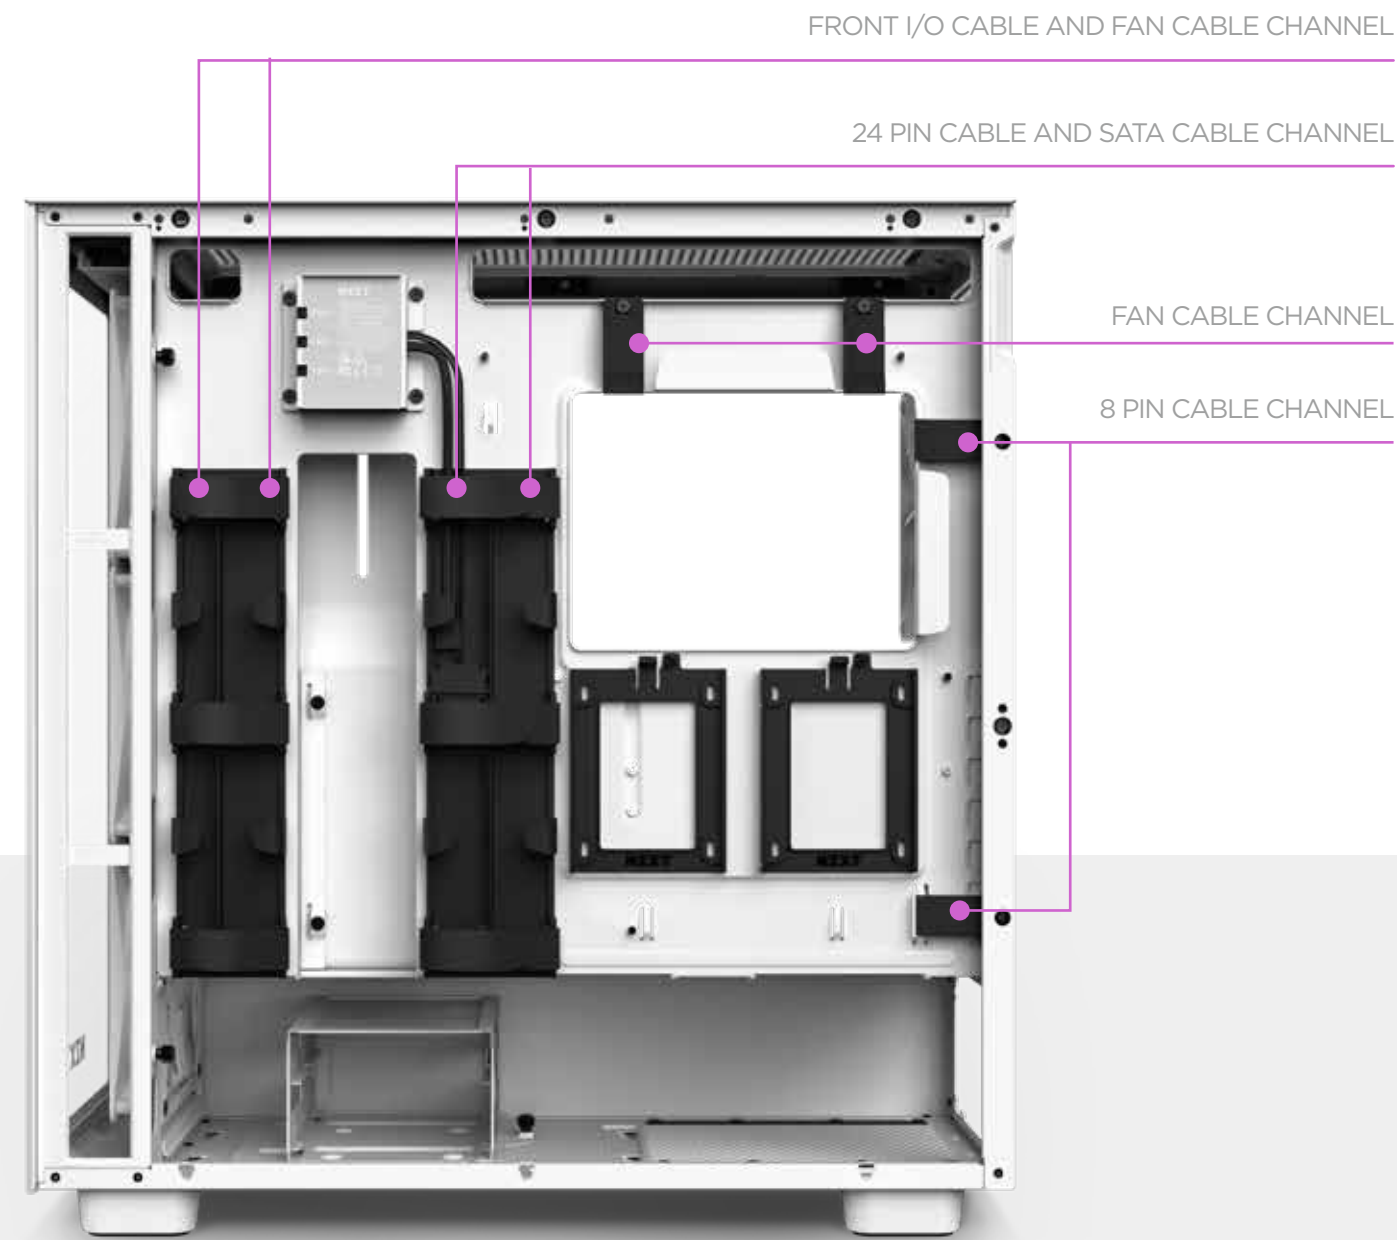

LIGHT IT UP

Achieve a vibrantly colorful build with pre-installed F140 RGB Core fans. This case also offers personalization and NZXT CAM controls, thanks to a built-in RGB controller.

KEEP IT COOL

Get excellent thermal efficiency thanks to a perforated top panel. The perforated panel provides improved ventilation as warm air flows through the top of the chassis, enabling even cooler temperatures. The top and front of the case support radiators up to 360mm for maximum cooling support. Three pre-installed RGB fans mean users get RGB cooling right out of the box.

BUILD WITH EASE

Streamline the build process with an improved cable management system. Wider cable channels provide more room to easily route cables, while the addition of hooks adds stability to hold everything in place. Ample space and clearance make the H7 Flow and H7 Elite a spacious chassis for ambitious builds.

PICK THE RIGHT STYLE

The H7 Elite comes with a glass front panel for a vivid RGB look. Available color options include matte white or matte black.
